

An Introduction to Counselling and Psychotherapy takes professional trainees through the entire therapeutic process, introducing the theory and applying it to real-life practice. It is, in short, an authoritative introduction to everything a trainee needs to know to become a professional therapist. Drawing on years of experience as a counseling practitioner and researcher, Andrew Reeves provides a uniquely practical consideration of counseling and psychotherapy theory, linked to the development of appropriate skills and located within the context of therapeutic practice today.

The Homemade Mermaid, Francois Mitterrand: The Making of a Socialist Prince in Republican France, Kinetic Anatomy, The Rise and Fall of the German Air Force (RAF at War), Future Directions in Particle and Nuclear Physics at Multi-GeV Hadron Beam Facilities, Adaptability: Responding Effectively to Change (J-B CCL (Center for Creative Leadership)),
