PRAISE FOR THE LAW OF ATTRACTION SERIES Brilliant!!! By Roy Love This is an absolute genius and simplified perspective on the LOA. Truth guided steps into releasing the power of the Almighty into any and every place in life. REAL STUFF!!!! simple and magnificent By PDX Lanier I have read about the Law of Attraction before but never with a concrete way to apply it. This gives you a real action to take. It is so worth reading. Wonderful.... By Tessa I love this little book...I am inspired. Thank you for this...I have been going the wrong direction. I will write you again...soon. It works By michael smallshaw The Method has worked for me before, I did not understand what was happening or why. I do now. Thank you for for the life manual. Relax and meditate... By Tobias Hardy This is an interesting take on law of attraction. And yes, Soloff is right when saying there are so many LOA books that talk about the theory, but they all lack the practical application. To summarize what the method is, Soloff states that sitting in meditation and thinking about how abundant the universe is, its a lot more effective than all the other ways out there. The purpose is to get your mind off your problem, because dwelling on it will only prolong the unwanted. So feeling positive and maintaining your meditations twice a day will eventually fix all the issues in your life.
